[One-child policy - Wikipedia](#)

Tue, 13 Nov 2018 11:42:00 GMT

China's one-child policy was part of a birth planning program designed to control the size of its population. Distinct from the family planning policies of most other countries (which focus on providing contraceptive options to help women have the number of children they want), it set a limit on the number of children parents could have, the world's most extreme example of population planning.
