Basically, all humans have needs and wants. Needs are things we can't live without, while wants are simply our desires that we can live without. We all have unlimited wants, which is true, since all of us want a new PC, a car, new graphics card, etc. that we actually do not need to live. Businesses produce goods and services to satisfy needs and wants.

A patent is a form of intellectual property. A patent gives its owner the right to exclude others from making, using, selling, and importing an invention for a limited period of time, usually twenty years. The patent rights are granted in exchange for an enabling public disclosure of the invention. People who are employed to do research are often obligated by their employment contracts to ...
