The following words, along with their meanings, were extracted from *The Languages of Japan* by Masayoshi Shibatani (Cambridge University Press, 1990, ISBN 0 521 36070 6 [hardback], ISBN 0 521 36918 5 [paperback]). I have used Shibatani's transcription, which seems to be phonemic, but have omitted hyphens, which seem to be used irregularly in the original.

Les oni (??) sont des créatures du folklore japonais populaire dans les arts, la littérature et le théâtre nippon [1]. Leur apparence diverge de source en source, mais ils ont habituellement une forme humanoïde, une taille gigantesque, des griffes acérées, deux cornes protubérantes poussant sur leur front, des poils ébouriffés et un aspect hideux [2].
